Appendix 3 Evaluation of education at the Faculty of Humanities

Course and curriculum evaluations aim to improve the quality of education. The VU draws up questionnaires for this purpose with a number of key questions, which are always asked. In addition, the faculty has the option of adding its own questions to the lists.

Within the Faculty of Humanities, questionnaires are distributed digitally. In this way, the anonymity of students is guaranteed and the PDCA cycle - which serves educational improvement - can be run properly.

When the results of the evaluation are ready, the course coordinator is notified. The course coordinator formulates a response to the results of the evaluation and can also report to the students what they are going to change about the course for the next academic year based on the results. Students will have access to a selection of the evaluation results (provided there were at least five respondents) and the course coordinator's response.

The evaluation results are available to the examiner, the instructor members of the program committee, the program director, and the evaluation coordinator. The Annual Evaluation Plan states when the evaluation results will be available. The program committees can adjust their meeting schedule accordingly, if desired. The program committees present an analysis of the evaluations in their annual report.

Courses to be evaluated

The following criteria are used to designate a module as requiring evaluation:

- Each course is evaluated (at least) once every three years, this means that one third of all courses are covered anyway. This is spread over periods and years so that not all students of one year level are asked to fill in questionnaires each time;
- all newly developed courses / new curriculum;
- courses taught by new teachers;
- all less well evaluated courses from the previous year based on criteria as defined in the Annual Evaluation Plan;
- all courses from university minors offered by faculty;
- courses addressed in the annual plan of the Assessment Chamber;
- courses, with more than 8 students enrolled, that were identified as requiring evaluation in the previous year, but for which there are no evaluation results.

Curriculum Evaluations

The basic principle is that a curriculum is evaluated at least before the start of a midterm review or visitation and after every (thorough) curriculum change. The questionnaires are distributed digitally. The program director may add additional questions to this questionnaire. The period in which the questionnaire is distributed is determined in consultation with the programme director. In addition to the programme committee, the results of curriculum evaluations may be discussed with the work field advisory board.

Other forms of evaluation

Besides digital evaluation, there are other ways to evaluate education. The chapter on Educational Evaluations in the VU's Handbook on Educational Quality provides an overview of qualitative forms of educational evaluation, such as panel discussions, peer review, and quick inventories of strengths and suggestions. These forms of evaluation are encouraged within the faculty.

National Student Survey (NSE)

The Vrije Universiteit participates in the National Student Survey (*Nationale Studenten Enquete*), which is conducted each spring. The NSE can provide useful information about how students experience their program. The annual reports of the programmes reflect on the results of the NSE.

Appendix 4 Programme objective and exit qualifications

The programme has the following objectives:

1. to enable students to acquire academic knowledge, understanding and skills and train them in the use of scientific methods in the field of Arts and Culture in general, and with regard to the chosen specialisation in particular;
2. to enable students to develop the following academic skills:
 - independent academic reasoning and conduct,
 - the ability to analyse complex problems,
 - report on an academic level using an academically accepted format;
3. to prepare students for an academic career and further education;
4. to prepare students for a career outside academia.
