

“Toolkit” research integrity @ VU and AmsterdamUMC

In this document, you find suggestions for activities, courses/trainings for various target groups on responsible conduct of research.

For each activity it is indicated which target group, how to get access and when this activity will be available.

For most activities it is mentioned how to get access to the tools. You can also contact Nathalie Trifkovic or Mariette vd Hoven for more information and directions.

Toolname	Target group + short description	How to get access	Group size	Certificate?	Costs
Erasmus Dilemma Game 	(PhD)students, research staff, management: collection of cases relevant to RI. Embedded in a game, where four options are pre-given, players have to choose one of the options and discuss these together.	https://www.eur.nl/over-de-eur/beleid-en-reglementen/integriteit/wetenschappelijke-integriteit/dilemma-game (download the app) https://www.eur.nl/en/about-eur/policy-and-regulations/integrity/research-integrity/dilemma-game	Small or larger groups	- NA	Free
VIRT2UE training 	Researchers/ teachers interested to learn to train integrity themselves.	Find more info on training options at : https://embassy.science/wiki/Guide:Be860a3-56a9-45f7-b787-031689729e52	limited numbers per training	yes	free
	Researchers/teachers, managers: the website to consult for all your research ethics and research integrity issues.	https://embassy.science/wiki/Main_Page A wiki-based website where the research community can consult, edit and contribute to the documentation that is collected for researchers, trainers and policy makers. It is THE	NA	NA	Free

Responsible research through supervision, mentoring and working together	PhD students This online course (1 EC) is offered fully online, with live online meetings, to small groups of PhD students, and offers an interactive experience (with group work) on integrity issues that are relevant in collaboration.	Teaser for the course: https://vimeo.com/707791207/0697af19f4 Course available upon request (m.a.vandenhoven@amsterdamumc.nl)	One course up to 25 students	yes	TBD
INTEGRITY games 	Undergraduate students, all disciplines This is a webbased tool, offering a narrative with several dilemmas that are relevant to undergraduate students, and offering information on 'how to do things right'. It is an appealing program, using story telling as lead to inform students on integrity issues.	https://integgame.eu/	Freely available, developed for undergraduate students (working with topics that are relevant at ba levels), available in multiple languages, teacher instruction embedded	NA	Free
Online course: Data in responsible conduct of research	PhD students Small private online course for small groups (up to 25), using the research cycle to highlight which integrity issues can rise during a research project. Including an assignment to self-check one's own project, an introduction to data management and the developments in open science. Course materials open every week in this 3-week course.	Teaser for the course: https://vimeo.com/707791160/799e6a0356	One course up to 25 students	yes	TBD
Integrity in academic publication: authorship and peer review	PhD students Small private online course for small groups (up to 25), focusing on	Teaser for the course: https://vimeo.com/707791264/fcfb8e1e46	One course up to 25 students	yes	TBD
