

## Step 5 Eliminating study programmes

At [www.vu.nl/bachelors](http://www.vu.nl/bachelors) you can find all the Bachelor's degree programmes of VU Amsterdam. Cross off what you are not interested in and see what remains. Which programmes appeal to you and fit your profile and interests? Make a list of programmes that appeal to you and see if you can cluster them.

After this, gather information about the programmes that appeal to you, read the study programmes carefully and learn more by becoming a [Student for a Day](#). Make a list of everything you want to know about the programmes and ask the programme advisers your questions. Then map out the advantages and disadvantages.

### Advantages and disadvantages of the programme

Write down the advantages and disadvantages of three preferred programmes.

Study programme 1: .....

| Advantages | Disadvantages |
|------------|---------------|
|            |               |
|            |               |
|            |               |

Study programme 2 : .....

| Advantages | Disadvantages |
|------------|---------------|
|            |               |
|            |               |
|            |               |

Study programme 3: .....

| Advantages | Disadvantages |
|------------|---------------|
|            |               |
|            |               |
|            |               |
