SUMMARY OF WORK EXPERIENCE

In my position as Senior Advisor Organization and Management, my work experience encompasses the acquisition and management of (international) capacity building projects, facilitating leadership & management training for junior officials, top- & middle management and developing interventions which support change initiatives and/ or institutional development. In addition I work as a Life Counselor thus offering clients practical methods and insights in order to learn how to deal with challenges on their life path.

I have a strong motivation and fascination for the theme 'personal leadership'. My point of departure is to assist clients in finding their own solutions rather than to impose solutions on them. In my interventions I use my open-mindedness, ability to ask questions, intuition, enthusiasm, flexibility, creativity and intercultural understanding and respect.
