

## **Amendment to the Student Personal Data Processing Regulations Vrije Universiteit Amsterdam**

The Student Personal Data Processing Regulations Vrije Universiteit Amsterdam will be amended as follows:

I

Article 3.2, under o, will read as follows:

o. Fraud control and time control with online supervision of examinations and tests in the academic year 2022-2023 (online proctoring).

II

This amendment will enter into force as soon as it has been adopted by the Executive Board after approval by the USR and will cease to apply 60 days after the Board of Human Rights (College van de Rechten van de Mens) has rendered a decision on the complaint filed against the VU about online proctoring, on the understanding that the personal data collected up to that point will be (further) processed after that period, insofar as this is necessary for marking exams, objection and appeal procedures or legal tasks of the VU University Amsterdam.
