Section A: Faculty section

1. General provisions

Article 1.1 Applicability of the Regulations

- 1. These Regulations apply to anyone enrolled in the programme, irrespective of the academic year in which the student was first enrolled in the programme.
- 2. These Regulations enter into force on 1 September 2022.
- 3. An amendment to the Teaching and Examination Regulations is only permitted to concern an academic year already in progress if this does not demonstrably damage the interests of students.

Article 1.2 Definitions

The following definitions are used in these Regulations (in alphabetical order):

a. academic year: the period beginning on 1 September and ending on 31 August of the

following calendar year;

b. CvB: the Executive Board of Vrije Universiteit Amsterdam;
c. EC (European Credit): a course credit with a workload of 28 hours of study;
d. examination: the final examination of the Master's programme;

e. FGV: Faculty joint assembly – assembly of the faculty student council and

faculty staff council;

f. interim examination: an assessment of the student's knowledge, understanding and skills

relating to a unit of education. The assessment is expressed in terms of a final mark. An interim examination may consist of one or more partial examinations. A resit always covers the same material as the original interim examination. A written examination can consist of (a combination of) open questions, multiple choice questions, a paper, an essay or written assignment. An oral examination can consist of (a combination of) open questions, a debate or a verbal presentation;

g. unit of education: a (study) unit or course of the programme within the meaning of the

law

h. OLC: programme committee; i. period: a part of a semester;

j. practical exercise: the participation in a practical training activity or other educational

learning activity, aimed at acquiring certain (academic) skills. Examples

of practical exercises are:

o researching and writing a thesis or dissertation;

carrying out a research assignment;

o taking part in fieldwork or an excursion;

participating in and completing an internship;

k. pre-Master's enrolee: person enrolled in a pre-Master's programme, who is not a student

from a legal perspective;

I. programme: the totality and cohesion of the unit of education, teaching

activities/methods, contact hours, testing and examination methods

and recommended literature;

m. SAP/SLM: the student information system (*Student Lifecycle Management*); n. semester: the first (September - January) or second half (February - August) of

an academic year;

o. specialization: optional route of study within a degree programme indicating a

deepening of the interdisciplinary or multidisciplinary context of the

programme;

p. student 'studying';

q. student statute: sets out the rights and responsibilities of students on the one hand, and

of Vrije Universiteit Amsterdam on the other hand, including those derived from the law and those derived from university regulations. The Executive Board (CvB) officially confirms the student statute once its completeness has been approved by the University Student Council

(USC);

r. study guide: the guide for the study programme that provides further details of the

courses, provisions and other information specific to that programme.

The study guide is available online at: https://www.vu.nl/en/study-guide/;

s. study monitor (studiemonitor): dashboard for students and academic advisers with data of the student

and that provides insight into the student's study progress;

t. subject: see 'unit of education';

u. track: a study pathway within a broader Bachelor's or Master's degree

programme, such as a fully English-language study pathway within a

Dutch-language Bachelor's or Master's degree;

v. thesis: a unit comprising research into the literature and/or contributing to

scientific research, always resulting in a written report:

w. unit of education: a unit of study of the programme within the meaning of the WHW;

x. university: Vrije Universiteit Amsterdam;

y. WHW: the Dutch Higher Education and Research Act (Wet op het Hoger

Onderwijs en Wetenschappelijk Onderzoek);

z. workload: the workload of the unit of study to which an interim examination

applies, expressed in terms of credits = EC credits (ECTS = European Credit and Transfer Accumulation System). The workload for 1 year

(1,680 hours) is 60 EC credits.

The other terms have the meanings ascribed to them by the WHW.

2. Study programme structure

Article 2.1 Structure of academic year and educational components

- 1. The study programme will be offered in a year divided into two semesters.
- 2. Every semester consists of three consecutive periods. The first two periods each consist of eight weeks, and the final period consists of four weeks.
- 3. An educational component comprises 6 EC or a multiple thereof.
- 4. By way of exception to paragraph 3, the Executive Board may in special cases and on request of the Faculty Board, stipulate that a unit of study comprises 3 EC or a multiple thereof.

3. Assessment and Examination

Article 3.1 Signing up for education and interim examinations

- Every student must sign up to participate in the educational components of the programme, the examinations and resits. The procedure for signing up is described in an annex to the Student Charter.
- 2. Signing up may only take place in the designated periods.

Article 3.2 Type of examination

1. At the examiner's request, the Examination Board may permit a different form of interim examination than is stipulated in the study guide.

Article 3.3 Oral interim examinations

1. An oral assessment is public unless the Examination Board determines otherwise. 'Public' in this context refers to the four eyes principle which states that an oral examination must always be done with two examiners. For further rules and regulations concerning oral examinations, see the Rules and Guidelines of the Examination Board FSS, article 11 'Oral examination'.

Article 3.4 Determining and announcing results

- 1. The examiner determines the result of a written interim examination as soon as possible, but at the latest within ten working days. The marking deadline for the first submission opportunity for theses is also ten working days. The marking deadline for the second submission opportunity for theses is no longer than twenty working days. The examiner will then immediately ensure that the marks are registered and also ensures that the student is immediately notified of the mark, taking due account of the applicable confidentiality standards.
- The examiner determines the result (i.e. mark) of an oral examination as soon as possible, but at the latest within two working days after the examination has finished and informs the student accordingly. The fourth clause of the first paragraph applies.
- 3. In the case of assessments other than oral or written examinations, the Examination Board determines in advance how and by what deadline the student will be informed of the results.

Article 3.5 Examination opportunities

- 1. a. Per academic year, two opportunities to take examinations will be offered for each unit of education.
 - b. By way of exception to a., the options for retaking practical exercises, internships and theses are detailed in the faculty regulations master's thesis or relevant internship manual, teaching regulations or graduation regulations.
- 2. The most recent mark will apply in the event of a resit. A resit is allowed for both passed and failed units of study. The master's thesis, internship and practical exercise are excluded from the arrangement that a resit is allowed for both passed and failed units of study.
- 3. The resit for a (partial) interim examination must not take place within ten working days of the announcement of the result of the (partial) examination being resat.
- 4. The student who has passed all but one of the examinations necessary to meet the degree requirements and who is unable to sit that examination in the next semester, may submit a motivated request to the Examination Board asking for the opportunity to take this examination at an earlier date; the examiner can decide that this extra examination is a different assessment type than the regular examination opportunity. The student must have successfully participated in all the examination opportunities offered in the current academic year for the subject in question, unless participation was not possible for compelling reasons.
- 5. If a unit of education is no longer offered in the academic year following its termination, at least one opportunity will be provided to sit the interim examination(s) or parts thereof and a transitional arrangement will be included in the programme-specific section for the subsequent period.

Article 3.6 Marks

- 1. Partial marks are given on a scale from 1 to 10 with no more than one figure after the decimal point.
- 2. A final mark between 5 and 6 will be rounded to the nearest whole number: up to 5.50, rounded down; higher than 5.50, rounded up. All other final marks will be expressed in whole or half marks.
- 3. To pass a given course or unit, a final mark of 6 or higher is required.
- 4. The Examination Board can allow to use symbols rather than numbers, for example; v(oldaan), g(oed), n(iet)v(ol)d(aan), etc.)

Article 3.7 Exemption

1. At the written request of the student, the Examination Board may exempt the student from taking one or more examination components, if they:

- a. have either passed a course component of an academic (university) or higher professional education programme that is equivalent in terms of content and level;
- b. or have demonstrated through their work and/or professional experience that they have sufficient knowledge and skills with regard to the relevant unit of education.
- 2. The Master's thesis is excluded from this exemption possibility.

Article 3.8 Validity period for results

- 1. The validity period of interim examinations passed and exemption from interim examinations is unlimited, unless otherwise specified in Section B1.
- 2. The validity period of a partial examination is limited to the academic year in which it was sat or until the end of the unit of study concerned, as stipulated for the relevant unit of study in Section B1.

Article 3.9 Right of inspection and post-examination discussion

- 1. Within twenty working days after the announcement of the results of a written interim examination, but at least ten working days before the resit opportunity for that interim examination, the student can submit a request to inspect their assessed work, the questions and assignments set in it, as well as the standards applied for marking. The place and time referred to in the previous clause will be announced at the interim examination or Canvas in all cases.
- 2. If a collective post-examination discussion has been organized, individual post-examination discussions will be held only if the student has attended the collective discussion or if the student was unable to attend the collective discussion through no fault of their own.
- 3. Students who meet the requirements stipulated in paragraph 2 can submit a request for an individual post-examination discussion to the relevant examiner. The discussion shall take place at a time and location to be determined by the examiner within the regular timetable, on campus or online.

4. Academic student counselling and study progress

Article 4.1 Administration of study progress and academic student counselling

- 1. The faculty board is responsible for the correct registration of the students' study results. After the assessment of a unit of education has been registered, every student has the right to inspect the result for that component and also has a list of the results achieved at his or her disposal in VU.nl Dashboard.
- 2. Enrolled students are eligible for academic student counselling. Academic student counselling is in any case provided by
 - a. the Student General Counselling Service;
 - b. Student psychologists;
 - c. Faculty academic advisors.

Article 4.2 Facilities for students with a disability

- A student with a disability can, at the moment of submission to VUweb, or at a later instance, submit
 a request to qualify for one or more special facilities with regard to teaching, practical training and
 interim examinations. These facilities will accommodate the student's individual disability as much
 as possible, but may not alter the quality or degree of difficulty of a unit of study or an examination.
 In all cases, the student must fulfil the exit qualifications for the study programme.
- The request referred to in the first paragraph must be accompanied by a statement from a doctor
 or psychologist. If possible, an estimate should be given of the potential impact on the student's
 study progress. In case of a chronic disability a single (one time) request suffices.
- 3. Students who have been diagnosed with dyslexia must provide a statement from a BIG, NIP or NVO registered professional who is qualified to conduct psychological evaluation.
- 4. The faculty board, or the responsible person on behalf of the faculty board, decides on teaching facilities and facilities regarding logistics. The Examination Board will decide on requests for facilities with regard to examinations.

- 5. In the event of a positive decision in response to a request as referred to in paragraph 1, the student can make an appointment with the study adviser to discuss the details of the provisions.
- 6. A request for one or more facilities can be refused if it would place a disproportionate burden on the organization or the resources of the faculty or university were it upheld. Any such refusal will be substantiated.
- 7. If the disability justifies an extension of the interim examination time, the responsible person on behalf of the Examination Board will register in SAP this entitlement to an extension. If a disability justifies other measures to be taken, the academic adviser can take the necessary measures. The student can consult the study monitor to check which facilities have been granted to them.
- 8. The decision as referred to in paragraph 5 may specify a limited validity of the facilities granted.

5. Hardship clause

Article 5.1 Hardship clause

In instances not regulated by the Teaching and Examination Regulations or in the event of demonstrable extreme unreasonableness and unfairness, the faculty board responsible for the study programme will decide, unless the matter concerned is the responsibility of the Examination Board.

Section B1: Programme specific – general provisions

6. General programme information and characteristics

Article 6.1 Study programme information

1. The programme Communication Science, CROHO number 66615, is offered on a full-time basis.

Article 6.2 Teaching formats used and modes of assessment

- 1. The degree programme uses predominantly the following teaching formats:
 - lectures:
 - · tutorials:
 - practical exercises;
 - formative assessments;
 - privatissimum.
- The degree programme uses predominantly the following modes of assessment:
 - written examination
 - report
 - presentations;
 - · thesis.

7. Further admission requirements

Article 7.1 Intake date(s)

The programme starts on 1 September.

Article 7.2 Admission requirements

- 1. Admission to the Master's programme is possible for an applicant who has obtained a Bachelor's degree obtained at an institution of academic higher education, with the following conditions:
 - a. a minimum of 10 EC obtained in quantitative statistics at the level of the courses S_BIS + S_KWOM. Candidates have knowledge of e.g. multiple regression, (m)anova, factor analysis, moderation and mediation analysis;
 - b. a minimum of 10 EC obtained from substantive communication science or related courses;
 - c. Experience with conducting empirical research.
- 2. Applicants with a Bachelor's degree obtained at an institution outside the Netherlands may be asked for additional methods to prove that they meet the admission requirements.
- 3. An applicant should demonstrate that he or she has sufficient level of proficiency in English by meeting at least one of the following standards, no more than two (2) years before the start of the programme at the VU:
 - IELTS score with a minimum of 7.0;
 - TOEFL paper based test: 600;
 - TOEFL computer based test: 250;
 - TOEFL internet based test: 100;
 - VU TOEFL-ITP: 600(only valid at the VU).
- 4. Applicants who:
 - completed an English-taught secondary or higher education degree in Canada, the United States, the United Kingdom, Ireland, New Zealand or Australia or
 - have earned a Bachelor's or Master's degree in an English-taught programme accredited by NVAO in the Netherlands, or
 - have earned a Bachelor's or Master's degree in an accredited English-taught programme in another member state of the European Union
 - have obtained a Cambridge Certificate of Proficiency in English (CPE): A, B or C or a Cambridge Certificate of Advanced English (CAE): A or B.

- have earned a Dutch VWO-diploma (level 6 VWO-nieuw) or are enrolled for the pre-Master's programme Culture, Organization and Management and have thus passed the pre-Master's assessment in advance

are exempted from the requirements referred to in paragraph 3.

Article 7.3 Selection criteria

Not applicable.

Article 7.4 Pre-Master's programme

- 1. Applicants with a Bachelor's degree from a university of applied sciences (HBO) or a Bachelor's degree from a research university (WO) who wish to enter the programme but do not fulfil the admission requirements as stipulated in Article 7.2 can request admission to the pre-Master's programme.
- 2. To be admitted to the pre-Master's programme, candidates have to pass the pre-Master's assessment of which the sections English language skills and Numerical & Mathematical skills are compulsory. The minimum scores to be achieved are 3 for English and 3.5 for Numerical & Mathematical Skills.
- 3. The pre-Master's programme has 30 credits and consists of the following units:
 - a. New Media Challenges (6 EC);
 - b. PM Beschrijvende en inferentiele statistiek / PM Descriptive and Inferential Statistics (6 EC);
 - c. PM Onderzoekspracticum CW (6 EC);
 - d. Communicatieklassiekers (6 EC);
 - e. Project 4: Social Media Analytics (6 EC).

The following terms also apply:

- a. If the pre-Master's enrolee is completing an individualized pre-Master's programme, this is to be communicated to the enrolee in writing.
- b. The Examination Board can, if the pre-Master's enrolee submits a written request, exempt the enrolee from one or more examinations.
- 4. Successful completion of the pre-Master's programme will entitle the enrolee to admission to the relevant Master's programme in the following academic year.

8. Interim examinations and results

Article 8.1 Sequence of interim examinations

- 1. The following educational units cannot be participated in until the following sequence requirements are met:
 - Master's Thesis in Communication Science after obtaining the course Research Methods in Communication Science and at least 6 EC from the other courses in period 1 and period 2.

9. Regulation right of inspection

Article **9**.1 Sequence of interim examinations

More information about the inspection of assessed work see the regulation right of inspection of the programme/track Communication Science on VU.nl Dashboard.

Section B2: Programme specific – content of programme

10. Programme objectives, exit qualifications and language

Article 10.1 Workload

1. The programme has a workload of 60 EC.

Article 9.2 Tracks and/or specializations

- 1. The programme has the following specializations:
 - Media Psychology;
 - Political Communication, Digital News and Public Opinion;
 - Marketing and Corporate Communication.

Article **10.3** Programme objectives

The Master's programme in Communication Science is intended to prepare students for the professional labour market where they can hold a position in the field of communication. Graduates are communication scientists who are broadly employable in professional practice. The programme is characterised by a strong theoretical depth and students are trained to apply this theoretical knowledge to social issues. Research plays an important role in the programme, both in the form of being able to interpret and apply scientific research and in setting up and carrying out research. The focus is on applying academic knowledge and skills to socially relevant issues. The programme enables its graduates to work in the field of communication.

Article 10.4 Exit qualifications

1. Exit qualifications

Knowledge and insight - the graduate has knowledge and insight into:

- a. theories from communication science and related fields of science within one of the graduation tracks:
- b. the current state of the scientific discussion in relation to one of the specialisations, in order to be able to interpret theoretical developments and recent research findings:
- c. the basic principles of research methods used within communication studies, with an emphasis on quantitative methods of social scientific research and in particular the research methods survey, experiment and computational analysis and visualization of (social) media and other data and the techniques of analysis that are commonly used;
- d. advanced quantitative research methods as used within the field of communication sciences; depending on the chosen specialisation, knowledge and insight are expected in the field of research methods survey, experiment or computational analysis which make multivariate analyses possible.

Application of knowledge and insight - the graduate is able to:

- a. apply the most important theories of communication science and related fields of science and recent developments, in particular with regard to one of the graduation tracks, to fundamental communication issues in order to potentially contribute to the scientific discussion;
- b. applying the most important theories of communication science and related scientific fields and recent developments, in particular with regard to one of the specialisations, to identifying, interpreting and responding to communication issues in society, both in a national and international context;
- c. responding to communication issues from society and translating these into practice-oriented communication advice:
- d. use the most important theories of communication science and related scientific fields and recent developments, in particular in relation to one of the specialisations, to substantiate and formulate relevant research questions and hypotheses, thus potentially contributing to the scientific discussion:
- e. to use the quantitative methods of social-scientific research used within communication science and, depending on the chosen specialisation, in particular the research methods survey, experiment and computational analysis, in order to answer methodologically relatively complex research questions:
- f. interpret research data from methodologically relatively complex research and estimate their value.

Judgement - graduates are able to:

- a. interpret theoretical argumentation within the field of Communication Science and in related fields of science, and assess its reliability and validity;
- b. interpret research data from methodologically relatively complex research, collected by the student or by others, and assess them for reliability and validity;
- c. collect literature and data to formulate answers to theoretically relatively complex fundamental or applied questions in which the communication aspect is only a part of the question;
- d. demonstrate awareness of the social relevance of communication issues, including ethical and normative aspects, both in a national and international context.

Communication - the graduate is able to:

- a. indicate to an audience of experts and non-experts what the communication aspect of an applied or fundamental issue is;
- b. present research findings, conclusions and consequences in writing and orally, both to an expert audience and to an audience of non-experts;
- c. apply professional skills effectively in individual and collaborative projects and reflect on his/her own performance.
- 2. Language proficiency may be taken into account in the assessment of (interim) examinations.

Article **10**.5 Language of instruction

- 1. The language of instruction is English.
- 2. The 'Gedragscode vreemde taal' (code of conduct foreign languages) applies.

11. Curriculum structure

Article 11.1 Composition of the programme

- 1. The programme comprises at least a package of compulsory components and an individual Master's thesis.
- 2. Educational components are categorized as specialized (400), research oriented (500) and highly specialized (600) level.

Article 11.2 Compulsory educational components

A detailed description per educational component can be found in the Study Guide.

A detailed description per educational component can be found in the study duide.

Article 11.3 Participation in practical training and tutorials

1. In the case of a practical training, or tutorials, the rules about obligatory attendance will be announced in the study guide for that subject on Canvas prior to the start of the teaching period for that subject.

12. Evaluation and transitional provisions

Article 12.1 Evaluation of the education

1. The education provided in this programme is evaluated in accordance with the evaluation plan in Appendix I. The faculty evaluation plan offers the framework.

Article 12.2 Transitional provisions

By way of departure from the Teaching and Examination Regulations currently in force, the transitional provisions in Appendix II apply for students who started the programme under a previous set of Teaching and Examination Regulations.

Appendix I Evaluation plan Master Communication Science

FSW periodically evaluates the education in the programmes. Evaluations are an important instrument to look at what goes well in education and what can be improved. FSW evaluates according to the PDCA cycle (Plan-Do-Act-Check) the continuous improvement of education in the programmes. The results of quantitative and qualitative evaluations contribute to this. The Programme Committees meet to discuss the results of these evaluations and make suggestions on how to improve education at course and programme level (e.g. curriculum or minor). The OER stipulates that programme committees have the right to consent to the manner of evaluation. As a result, the programme directors annually provide an evaluation plan in which the methods of evaluation and the cyclical evaluation process are made clear. As of September 2021, this will be the case for the bachelor's and master's programmes in Master's programmes Communication Sciences:

What does the programme evaluate?

Courses. B. Lecturers C. Curriculum (whole/part). D. Connection to the labour market

A. Courses

Methods: (1). Student evaluation of course via questionnaire, (2). Discussion OLC, (3) Focus groups students, (4) Course file/examination board, (5) Tests sample.

When: (1) & (2). After completion of course, (3) per semester, (4) after handing in course file, (5) if course falls in sample.

Who: (1). SOZ, (2) & (3). OPD/OPC, (4) Examination Board/OWB, (5) Examination Board

Follow-up: (1) through (5) Points for improvement are feedback to lecturers from OPD/OPC, lecturer records points for improvement in course file and provides feedback on Canvas.

B. Teachers

Methods: (1). Student evaluation of course (questions about the instructor), (2). Overall evaluation prior to annual appraisal (and promotion) (3) Intervision .

When: (1). After completion of course, (2). 1 x per year (3). Annually or on lecturers initiative.

Who: (1). SOZ, (2). Supervisor and/or OPD, (3).lecturer/coordinator intervision.

Follow-up: (1), (2) and (3). Lecturer records points of improvement in course file, (3). Lecturer adopts points of improvement, possibly in consultation with OPD/OPC.

C. Curriculum

Methods: (1) student focus groups, (2) Interview with teaching team, (3) Annual report

When: (1) each semester (2) occasionally, (3) annually

Who: (1) OPD/OPC (2) OPD/lecturers, (3) OPD/OPC

Follow-up: (1) Points for improvement are fed back by OPD/OPC (2) Assessment plan is revised in team meeting in autumn and curriculum improvements implemented, (3) Action points following administrative consultation with faculty board.

D. Connection to the labour market

Methods: (1). Field advisory board, (2) Incidental consultations with stakeholders, (3) Alumni survey.

When: (1). 1 x per year, (2) & (3) incidental

Who: (1) OPD, (2) & (3) Stakeholder coordinator

Follow-up: (1) Minutes and action points frequent meetings of field advisory council, in which alumni also participate. This is shared with OLC (2 & 3) Improvement points are fed back by OPD/OPC/Coordinator.

Appendix II Transition Table Communication Science

Appendix III Addendum Pertaining to the 2022-2023 Teaching and Examination Regulations

Master TER, Section B1: Programme-specific section

Article 7.2 Admission requirements

Supplementary to Article 7.2.1, students* are also admissible for the 2022-2023 academic year admission in September 2022 if, by 31 August 2022 at the latest, they have not obtained a maximum of 18 EC from the Bachelor's programme, under the following conditions:

- The Bachelor's degree certificate must still be obtained before 1 September 2023 or before the Master's degree certificate is obtained, whichever comes first. If this condition is not met, the student will not be able to continue or complete the Master's programme.
- the Bachelor's thesis (or other final project) must be completed before the student starts working on their Master's thesis, or other final project.

also admissible, students* who, by no later than 31 August 2022, have not obtained a maximum of 6 EC from the bridging or pre-Master's programme, under the following conditions:

- The bridging or pre-Master's programme must still be completed successfully before 1 September 2023 or before the Master's degree certificate is obtained, whichever comes first. If this condition is not met, the student will not be able to continue or complete the Master's programme.
- The final project of the bridging or pre-Master's programme must be completed before the student starts working on their Master's thesis (or other final project).

*The above supplementary requirements do not apply to non-EEA students who must complete a Bachelor's programme outside of the Netherlands.

Based on additional Section 7:37e WHW

University Student Council's advice on policy (9:33a Higher Education and Research Act, second paragraph)

Advice of the OLC on each programme via the Teaching and Examination Regulations

Article 7.4 Bridging or pre-Master's programme

Supplementary to Article 7.4.1, students* are also admissible for the 2022-2023 academic year (admission in September 2022) if, by 31 August 2022 at the latest, they have not obtained a maximum of 18 EC from the designated HBO/university (WO) Bachelor's programme, under the following conditions:

- The HBO/WO Bachelor's examinations must still be passed before 1 September 2023, or before the bridging or pre-Master's programme is completed, whichever comes first. If this condition is not met, the student will not be able to complete or continue the programme.
- The Bachelor's thesis (or other final project) must be completed before the student starts working on the final project for the pre-Master's programme.

*The above supplementary requirements do not apply to non-EEA students who must complete a Bachelor's programme outside of the Netherlands.

Based on additional Section 7:37e WHW

University Student Council's advice on policy (9:33a Higher Education and Research Act, second paragraph)

Advice of the OLC on each programme via the Teaching and Examination Regulations

Explanatory notes:

Article 7.2 Admission requirements

Until 1 September 2022/1 February 2023, admission to the Master's programme by means of the 'exceptional admission provision' has been added to Article 7.2. This provision applies to Dutch and other EEA students who are pursuing a Bachelor's programme or a bridging/pre-Master's programme in the 2020-2021 academic year and who have not previously registered for the relevant Master's programme.

The exceptional admission provision gives universities of applied sciences and research universities the flexibility to deviate from the requirement that a Bachelor's programme must be completed prior to participation in a Master's programme, in the way that is best suited to the specific features of the Master's programme. Students must complete their Bachelor's programme or pre-Master's programme by 31 August 2023 at the latest. If the student does not meet this requirement, he or she will not be able to continue or complete the Master's programme.

With respect to each Master's programme, the Faculty Board will determine under what conditions the student is to be admitted to the Master's programme within the parameters of VU Amsterdam's 2022 exceptional admission provision, if the student does not yet hold a Bachelor's degree or has not yet completed a bridging/pre-Master's programme or in any other respect does not yet satisfy the admission requirements for the programme referred to in Article 7.2. These conditions are set out at the degree programme level in the addendum to the Teaching and Examination Regulations. In all cases, those conditions will indicate the minimum number of EC that must be obtained. Subsequently and where applicable, it will be specified whether the final project must be completed before the student can begin working on the final project for the Master's programme (a common requirement at Vrije Universiteit Amsterdam). Where applicable, additional substantive requirements may be specified with regard to the knowledge and skills that the student must have or educational units that the student must have completed before they can be admitted the Master's programme.

Article 7.4 Bridging or pre-Master's programme

See the explanatory notes to Article 7.2, subject to the proviso that the bridging/pre-Master's programme must be completed within one year and that the HBO/university Bachelor's programme must be successfully completed before completing the bridging/pre-Master's programme.
